

# Student Colloquium 2011

**Date** 21-04-2011  
**Time** 09:00-17:00  
**Location** V 5161.0253

| Starttime | Endtime | Title   | First speaker          | Second speaker       | Chair              |
|-----------|---------|---|------------------------|----------------------|--------------------|
| 09:00     | 09:10   | Intro   | Daychair               |                      |                    |
| 09:10     | 09:30   | Contour detection - Cutting edges   | Sander Kelders         | Pieter Stavast       | Divya Avalur       |
| 09:30     | 09:50   | Multi-touch interaction on stacked objects in 3D environment  | Evert Kramer           | Jan-Paul Eikelenboom | Evert Kramer       |
| 09:50     | 10:10   | Computing Skeletons of Multi-Dimensional Objects using the Augmented Fast Marching Method             | Karsten Westra         | Mark Scheeve         | Mark Ettema        |
| 10:10     | 10:25   | Break   |                        |                      |                    |
| 10:25     | 10:45   | Wikis Support in Architectural Knowledge Management for Sharing and Reuse: Experiences and Approaches | Konstantinos Tselios   | Manuel Martiarena    | Erwin Vast         |
| 10:45     | 11:05   | Variability Management in Business Processes  | Ntembeko Mkhunyana     | Snara Matyila        | Grayson Kleine     |
| 11:05     | 11:25   | Context Inconsistency Management Using Partial Constraint Checking                                    | Samuel Esposito        | Alexander Jurjens    | Ntembeko Mkhunyana |
| 11:25     | 11:40   | Break   |                        |                      |                    |
| 11:40     | 12:20   | <b>Keynote</b>  | -                      |                      |                    |
| 12:20     | 12:40   | Model for a decentralized smart grid  | Grayson Kleine         | Xander Elsas         | Rudy Schoenmaker   |
| 12:40     | 13:40   | Lunchbreak  |                        |                      |                    |
| 13:40     | 14:00   | Online Voting: Yes or No  | Klaas Mussche          | Edwin-Jan Harmsma    | Li Zengyang        |
| 14:00     | 14:20   | Google tools and SEO for efficient web page development   | Konstantinos Theodorou | Darius Karremans     | Klaas Mussche      |
| 14:20     | 14:40   | Digital Image Forensics   | Jan Kazemier           | Michiel Heijkoop     | Sander Kelders     |
| 14:40     | 14:55   | Break   |                        |                      |                    |
| 14:55     | 15:15   | Opponent Modeling and Dynamic Formation in RTS Games  | Amirhosein Shantia     |                      | Dirk Zittersteyn   |
| 15:15     | 15:35   | Cloth Simulation - Permanent deformation using Hysteresis   | Tijmen Klein           | Dirk Zittersteyn     | Marcel Jillings    |
| 15:35     | 15:55   | Comparison of JavaScript libraries  | Johan van der Geest    | Mark Ettema          | Frank Blaauw       |
| 15:55     | 16:10   | Break   |                        |                      |                    |
| 16:10     | 16:30   | Main Memory Database Systems - Opportunities and pitfalls   | Wytze Hazenberg        | Sjoerd Hemminga      | Amirhosein Shantia |
| 16:30     | 16:50   | NoSQL distributed storage systems   | Jan Thijs              | Elmer Jansema        | René Zuidhof       |
| 16:50     | 17:00   | Closing the symposium   | Daychair               |                      |                    |
| 17:00     | 18:00   | Afterparty  |                        |                      |                    |
